

15 November 2018

AA/JB

Dear Parent/Carer

As part of your son's continuing Personal, Social, Health and Economic education, a series of sessions have been planned for Tuesday 4 December.

The programme for the day will be lead by series of professionals in their field to enhance your son's understanding of a variety of issues. The topics and organisations will include:

- **Teenage Cancer Trust** will provide a talk about how to identify testicular cancer and skin cancer, its treatment and prognosis.
- **Lincolnshire Road Safety Partnership** will provide a presentation on 'Young Passenger Awareness' and road safety.
- **Positive Health (Lincolnshire)** will deliver two presentations which look at how to develop mutually respectful relationships and homophobic awareness.
- **NatWest Bank** will provide a workshop to help equip students with some key financial skills and improve their financial capability.

Should you require any further information concerning the Year 10 programme, please do not hesitate to contact me.

Yours faithfully

Amy Angell
Head of Year 10
