

24 September 2019

LW/JB

Dear Parent/Carer

Every year, the Sir Isaac Newton Lecture takes place at RAF Cranwell. The talk is organised by the Institution of Engineering and Technology, the Royal Aeronautical Society and the Institution of Mechanical Engineers. The event is aimed at students to give them an insight into Science, Technology, Engineering and Mathematics, hopefully both inspiring them and broadening their awareness of the many varied and exciting careers in these fields.

This year, the talk will take place on Wednesday 9 October 2019. The lecture will be given by Mike Lawton, CEO and Founder of Oxford Space Systems (OSS). Mike will provide an outline of his career to date which led him to form OSS, and the range of space hardware it is designing for the new commercial space ager.

The lecture is free although a small amount of money is required by students attending to cover the cost of the coach. The cost is £3 per student and this can be paid using the ParentPay system. We will leave the school site at approximately 10.15am and return around 1pm in time for afternoon lessons. Students should take a packed lunch and wear usual school clothing/uniform.

If you would like your son/daughter to attend, please complete the reply slip below and return to me no later than Friday 4 October, as well as making the payment on ParentPay.

If you have any further questions, please feel free to contact me by phone or email.

Yours faithfully

Luke Whiting
Head of Physics

Please return to: Mr Whiting, Head of Physics, Carre’s Grammar School by 4 October

Sir Isaac Newton Lecture – Wednesday 9 October 2019

I give permission for my son/daughter

form: base school:.....
to attend the Sir Isaac Newton Lecture on 9 October 2019.

I also give permission for the above to take part in a photograph, radio interview and/or video shoot for The Lincolnshire and Rutland Education Business Partnership (The EBP).
