

Dear Parent/Carer

Covid Hotline

We are constantly evolving the systems we are using to ensure the self-isolation of Covid positive status of staff and students is shared in a timely way with the right people. From today we ask that you follow the procedures set out below.

Self-Isolating student

To alert us to the fact that your child is **self-isolating**, but has not yet tested positive, please phone or email school in the normal way enquiries@carres.uk or 01529 302181.

Your message will be picked up in school hours and teachers will be informed that morning that work needs to be set remotely.

Covid Positive student

To alert us to the fact that your child has tested **Covid positive in school office hours** (8am - 4.30pm) please phone the school directly 01529 302181.

To alert us to the fact that your child has tested **Covid positive out of school hours** please email Covid19@carres.uk or phone the hotline number 07709 915343.

Apologies for updating the details we sent out to you before half term. We are just trying to prevent staff across both schools in the Trust needing to respond to emails all weekend/evening.

Member of Household Covid Positive

If a member of the household has tested positive, other than the student, please simply contact us using the email address enquiries@carres.uk or call the main office on 01529 302181. There is no need to call the hotline number.

Public Transport

We have been asked by Lincolnshire Police to advise students that when waiting for public transport at the end of school, particularly at locations where it is difficult to socially distance such as the Market Place, they should ideally wear a face mask to reduce the risk of transmission of the Covid-19 virus. In addition to this, they should also try to remain within their year group bubble and minimise contact with students from other year groups and schools. We would be grateful if you could reinforce this message with your son/daughter.

TESCO

We continue to work with our neighbours during the pandemic to help ensure the continued safety of the community, and in this regard I would like to inform you of TESCO's review of their policy.

With immediate effect TESCO will welcome students into their store to buy food for their breaktimes and to do shopping for their families at the end of the day. The management of the store would like students to respect the social distancing rules, not come into the store in large numbers, and only go into the store if they have an intention to buy food. TESCO management has stressed that its store is not a social meeting place and that their staff will be at the entrance to control the numbers going into the store.
